

Dear Customer

Re : Termination of your Smartnav Push button service

We are writing to you today regarding your Smartnav service that you hold with us. As you have not used your Smartnav Push button service for over 6 months, we will be terminating this service with immediate effect as per section 12.6 our Terms and Conditions, which can be found on our website.

Customers who have a touchscreen will still be able to make full use of touchscreen features available beyond this date, this change will only affect the push button service.

We would like to take this opportunity to thank you for your valued custom, if you would like to discuss these changes further, please email our support team at trackstarsupport@teletracnavman.com

Kind Regards,

Kelly Clarke
Head of Operations SVT
